HCOH 3-715 473 ml
HCOH 4-715 3,78 L

Coffee

HCOH 1-716 59 ml
HCOH 3-716 473 ml
HCOH 4-716 3,78 L

Cool Slate

HCOH 1-717 59 ml
HCOH 3-717 473 ml
HCOH 4-717 3,78 L

Lava Rock

HCOH 1-718 59 ml
HCOH 3-718 473 ml
HCOH 4-718 3,78 L

EXPLORE MORE

Engobes are finely ground clay based pigments. They are formulated to match the firing shrinkage and thermal expansion of the clay. Apply to wet or leather hard clay. The result of the raw firing is a matte, slightly rough surface. The piece can be fired again with our transparent clear glaze to get a brilliant

sheen and intensify the color of the engobes. Engobes can be applied on bisqueware using 2-3 layers for solid/opaque finish or use as a one stroke watercolor painting technique. You may apply engobes on the bottom of wares and fire without stiling. Always test first.

FIRING TEMPERATURE

Orton Cone : 6 | Celsius degrees C° : 1222° | Degrees Fahrenheit F° : 2232°
